Ice Fountains

Ice Cold Cooling off

How good does an ice cold cooling off feel after a sauna session when the ice is distributed on the warm body? This moment can only be understood by those who have already tried it. A short shock occurs as the ice meets the skin and everything seems to contract and the breath catches for a moment. After that, a pleasant feeling of warmth sets in that every sauna lover can appreciate.

Cool Design

You have the choice and your wishes are perfectly presented by Weise and Partner. We advise you on the variety of technical possibilities and you decide exactly how much ice you would like to be produced.

You can choose from a variety of design options in terms of shape, material and color. Almost every one of our ice fountains is unique. The variety of materials you can choose from is inexhaustible and you can rely on our years of experience when it comes to the selection of lighting effects.

You get an ice fountain that is individually designed for your building, which acts as an effective eye-catcher in your facility. We use devices that are exclusively made in Germany from Ziegler/Hannover. You will profit from a reliable and fast partner in case of the need for a repair or service.

The Most Important Reasons for Good Cooperation

- Your project will benefit from our 30 years of experience in the spa and wellness sector.
- You will receive one (or two) competent contact partner(s) from the first consultation to the final handover.
- You will obtain an economic plan and draft, a guaranteed fixed price, and a scheduled completion date.
- You can decide whether you would like the work to be carried out from a single source, or if you would like to use your own, familiar workmen.
- You receive layout and master plans as well as visualizations drawn by hand or as computer aided design. For each trade party involved, we create a detailed plan and determine the interfaces.
- You obtain the optimal solution which is appropriate to your style and combined with modern design, ideas, and high quality execution
