Planning

Concept and Planning

Weise and Partner develop and build functional wellness and spa facilities in hotels, thermal baths, and water parks. Our particular expertise lies with the use of natural and authentic materials. Our team includes selected workmen, who are consistent, precise, and reliable in terms of the implementation of the planned design.

We do not only construct new spa-and wellness facilities, but we also renovate and reconstruct the existing equipment. It is well known that renovation and optimization go hand in hand. Facilities such as graduation towers, footbaths, or fountains combine functional equipment with interior design.

The vivid naturalness is achieved through atmospheric lighting and light design as well as the true to style interior design, textile design, and furnishings. From the first idea and conception of the floorplan and cost calculation, to the monitoring of construction, execution and coordination, and finally to the implementation- it all requires the highest degree of specialized experience, technical competence, creativity, and intuition for each individual project.

The comprehensive planning and organization as well as the use of natural and authentic materials form the main focus of our work. The range of services includes individual, detailed advice and concept development, design and execution planning, as well as the final handover of your project.

The Most Important Reasons for Good Cooperation

- Your project will benefit from our 30 years of experience in the spa and wellness sector.
- You will receive one (or two) competent contact partner(s) from the first consultation to the final handover.
- You will obtain an economic plan and draft, a guaranteed fixed price, and a scheduled completion date.
- You can decide whether you would like the work to be carried out from a single source, or if you would like to use your own, familiar workmen.
- You receive layout and master plans as well as visualizations drawn by hand or as computer aided design. For each trade party involved, we create a detailed plan and determine the interfaces.
- You obtain the optimal solution which is appropriate to your style and combined with modern design, ideas, and high quality execution
