Relaxation Rooms

## Rooms of Comfort

Your sauna guests spend much more time out of the heated room than inside it.

In addition to that, the "Best Ager" generation and the 50+ generation have developed a target group that enjoys spending a long day in a facility with optimal conditions.

Taking this into account, the sauna guest should be offered various different retreat options.

## A Comfortable Ambience Fit for the Future

We at Weise and Partner have developed different concepts and created active and passive rooms that the guests enjoy using and in which they feel comfortable. Someone who should not be forgotten about is the visitor who can't cope without their smartphone and tablet, enjoys leisure time but cannot do without contact to the workplace as well as important or unimportant conversations. There are room concepts by Weise and Partner that take into account these wishes of the guests.

The women's sauna is an integral part of many places but a relaxation room exclusively for women is rarely found. Why not fulfill the wishes of this target group? It is normally women from other cultures in particular who tend to avoid rooms with both sexes. A relaxation room specifically for women can be a visual treat that opens up new target groups through marketing.

We would be happy to develop an individual concept for your facility.
